TRADE NOTICE

Sub: General Policy for Grant of Concession for Attracting New Export Cargo-Reg

****

1. Background and Objective

New Mangalore Port Authority (NMPA) is required to continuously improve its competitiveness and attract additional cargo in view of competition from neighboring and other competing ports.

In order to attract new export cargo, bring back cargo that has shifted to other ports, improve cargo throughput and optimise utilisation of Port infrastructure, a general and uniform policy is proposed for providing limited and time-bound commercial incentives to eligible export cargo.

The policy is intended to provide a transparent, objective and non-discriminatory framework for attracting export cargo which has not been handled at NMPA during the prescribed preceding period.

The policy shall be applicable uniformly to all eligible export cargo and all port users satisfying the conditions prescribed herein.

2. Short Title

This policy shall be called the:

"NMPA General Policy for Grant of Concession for Attracting New Export Cargo."

3. Scope and Applicability

This policy shall apply to eligible **bulk and break-bulk export cargo** proposed to be handled at NMPA.

The policy shall not apply to:

a. Containerized export cargo;
b. Liquid bulk export cargo; and
c. Any other category of cargo specifically excluded by the competent authority.

29/7/26

ದೂರವಾಣಿ / दूरभाष / Phone : 0824- 2407341, 2887399

The policy shall be applicable uniformly to all exporters, importers, C&F agents, shipping agencies and other eligible port users, subject to fulfilment of the eligibility criteria prescribed under this policy.

The policy shall not be restricted to any particular party, exporter, importer, C&F agent, shipping agency or specific cargo.

4. Definition of New Export Cargo

For the purpose of this policy, "New Export Cargo" shall mean an eligible export cargo which has not been handled at NMPA during the preceding **five years** prior to the effective date of this policy.

The eligibility of the cargo shall be determined with reference to the actual cargo handled at NMPA during the preceding five years.

The determination shall be made based on the cargo category and relevant Port records and shall not be based on the identity of the individual exporter, importer, C&F agent or shipping agency.

Once a particular cargo category is determined to be eligible under this policy, the concession shall be available uniformly to all eligible port users bringing such cargo to NMPA during the validity period of the policy.

5. Eligibility Criteria

Export cargo shall be eligible for benefits under this policy if:

a. The cargo falls within the eligible **bulk or break-bulk** export cargo category;
b. The cargo has not been handled at NMPA during the **preceding five years;**
c. The first shipment of the cargo is made after the effective date of this policy;
d. The cargo is actually brought to NMPA for export; and
e. All other applicable statutory, regulatory, customs, safety and Port requirements are complied with.

The eligibility shall be determined with reference to the cargo and not with reference to the identity of the port user.

6. Concession in Wharfage Charges

A concession of **25% on the applicable wharfage charges** may be extended for eligible new export cargo covered under this policy.

The concession shall be available for a period of **one year from the sailing date of the vessel carrying the first shipment of the respective eligible cargo**.

The concession shall be calculated on the applicable wharfage rate prevailing under the Scale of Rates/tariff provisions applicable to the cargo.

29/7/26

The concession shall be available uniformly to all eligible port users handling the eligible cargo during the applicable concession period.

7. Extension of Free Period for Aggregation of Cargo

Considering the nature of bulk and break-bulk export cargo and the time required for aggregation of cargo for shipment, the free period for aggregation of eligible new export cargo may be extended up to a maximum of **60 calendar days**.

The extended free period shall be available only for the purpose of aggregation of eligible cargo intended for export.

The free period shall be reckoned in accordance with the terms notified by NMPA.

Upon expiry of the permissible free period, applicable storage, demurrage or other charges shall be levied as per the prevailing Scale of Rates and applicable tariff provisions.

The extension of the free period shall not create any right for continued occupation of Port land beyond the permissible period.

8. Uniform and Non-Discriminatory Application

The policy shall be applied uniformly to all eligible export cargo and port users satisfying the prescribed conditions.

No differentiation shall be made based on:

a. The identity of the exporter or importer;
b. The identity of the C&F agent or shipping agency;
c. The origin or destination of the cargo;
d. The commercial relationship of the port user with NMPA; or
e. Any other factor not specifically prescribed under this policy.

The benefits shall be determined only with reference to the objective eligibility criteria prescribed in this policy.

9. Effective Date

The policy shall come into force from 29-07-2026 valid till 28-07-2027.

The benefits under this policy shall be available only to eligible cargo for which the first shipment is made after the effective date of the policy. The policy shall not have retrospective application.

10. Period of Concession

29/7/26

The concession in wharfage charges shall be available **for a period of one year** from the sailing date of the vessel carrying the first shipment of the respective eligible cargo.

The concession shall cease automatically upon completion of the applicable period unless the policy is extended or modified by the competent authority.

11. Non-Applicability of Other Concessions

The concession available under this policy **shall not be combined** with any other concession, rebate, discount or waiver applicable to the same cargo, unless specifically permitted under the applicable tariff provisions.

Where more than one concession or benefit is otherwise available under the applicable tariff framework, the port user shall be entitled to the benefit as determined under the applicable rules and approved tariff provisions.

12. Compliance with Applicable Tariff and Legal Provisions

The policy shall be implemented in accordance with the applicable provisions of:

a. The Major Port Authorities Act and rules made thereunder;
b. The Major Port Authorities (Fixation and Implementation of Scale of Rates, Fees and Conditions) Rules, 2021;
c. The applicable Tariff Policy for Major Port Authorities;
d. The prevailing Scale of Rates of NMPA; and
e. Other applicable statutory and regulatory provisions.

13. Trade Promotion and Review Mechanism

The policy is intended as a time-bound trade promotional measure to attract additional export cargo.

The concession shall not be treated as a permanent reduction in the applicable tariff.

The policy shall be reviewed periodically to ensure that:

a. The concession remains commercially justified;
b. The Port receives additional cargo and revenue;
c. The policy remains competitive and effective;
d. The concession does not result in avoidable revenue loss; and
e. The policy remains consistent with the applicable tariff and regulatory framework.

14. Authority for Implementation

The Traffic Department shall be responsible for implementation of the policy from the operational and cargo-handling perspective.

29/7/26

The Finance Department shall monitor the financial implications and revenue impact of the policy.

The eligibility of the cargo shall be jointly verified by the officers nominated by the Traffic Department and Finance Department.

Any matter relating to interpretation or implementation of the policy shall be placed before the competent authority for appropriate decision.

15. Recommendation for Approval

In view of the above, it is proposed that a **General Policy for Grant of Concession for Attracting New Export Cargo** may be approved with the following principal benefits:

1. **25% concession in applicable wharfage charges** for eligible new export cargo for a period of one year from the sailing date of the vessel carrying the first shipment; and
2. **Extension of free period for aggregation of eligible export cargo up to a maximum of 60 calendar days**, subject to the conditions prescribed in this policy.
